- (a) a cap on the compensation payable to the service provider; and
- (b) that such compensation must be performance based.

59. CANCELLATION OF CONTRACTS

1. Contracts may only be terminated in accordance with the termination provisions set out in the contract. Legal advice may be sought as appropriate.
2. Cancellation of bid or the cancellation of contracts, where applicable. Particulars are to include the reason for the cancellation, the date of approval, the name and rank of the person/body that granted the approval and the delegation number.
3. As an alternative, a fresh contract may be concluded through the normal bid procedures. In this process, account must be taken of the time elapsed between the closing of a bid and the cancellation of the contract and the effect of the cancellation on the municipality' schedules.
4. The municipality must cancel a contract awarded to a supplier of goods of services: If the supplier committed any proven corrupt or fraudulent act during the bidding process or the execution of that contract. If any official or other role player committed any proven corrupt or fraudulent act during the bidding process or the execution of that contract that benefited the supplier. Contract termination may be effected if allowed for in the contractual conditions and if both parties agree to the termination in writing.
5. Contract termination required by the municipality due to non-rectified breach of contract or corruption, shall always be initiated by the SCM Unit in consultation with the user division and legal assistance where required. The SCM Unit shall forward a notice of termination to the contractor and the user division must be kept informed of the actions taken. If the contractor does not agree with the termination, the case must be handed over to legal assistance. Termination of a contract is usually detrimental to the municipality. Therefore serious thought must be given to the grounds for considering termination.

6. Clarity must be reached beforehand on the question of whether the contractor will have a claim against the municipality or not, and if so, whether termination can be justified. If termination is decided upon, the matter must be explained fully in a memorandum to the Accounting Officer and the following must be addressed:
 - Indicate the arrangements to be made for completing the contract.
 - Indicate whether additional costs will be recovered from the contractor.

60. CONTRACT ASSESSMENT/UNSATISFACTORY PERFORMANCE:

1. The municipality must accept price reductions after award of a contract where this is advantageous to the municipality, unless the acceptance of the price reduction amounts to breach of contract. The municipality should continuously communicate unsatisfactory performance to contractors in writing compelling the contractor to perform according to the contract and thus to rectify or to restrain from unacceptable actions.
2. Unsatisfactory performance occurs when performance is not in accordance with the contractual conditions. The user division must timely identify unsatisfactory performance in terms of the contract. The SCM Unit must, in consultation with the user division and legal assistance if required, bring unsatisfactory performance to the attention of the contractor in writing. Also apply the audi alteram partem rule in the management of unsatisfactory performance. The SCM Unit shall give notice to the contractor of action to be taken in line with the contract due to non-performance.
3. If the performance is not rectified, the user division must inform the SCM Unit of this fact. Before action is taken in terms of the GCC or any other special contract condition applicable, the municipality must warn the

contractor by registered mail that action will be taken in accordance with the contract conditions unless the contractor complies with the contract conditions and delivers satisfactory supplies or services within a specified reasonable time.

4. If the contractor still does not perform satisfactorily despite a final warning, the municipality may make a recommendation to the Accounting Officer or the delegated authority for the appropriate penalties to be introduced or make a recommendation to the Accounting Officer for the cancellation of the contract concerned. When correspondence is addressed to the contractor, reference must be made to the contract number, the item number and the number and date of any relevant invoice, statement or letter received from the contractor.
5. Before action due to late delivery is instituted against a contractor who has offered a firm delivery period, the circumstances under which the late delivery took place must be investigated. There may be valid reasons for the late delivery, which are beyond the control of the contractor, in which case action cannot be taken summarily against the contractor.
6. Penalties are not intended as a source of income for the municipality, but serve as an incentive to the contractor to perform within the contractual conditions. Where an unreasonable delay occurs, the municipality must address a written warning to the contractor by registered mail, setting a cut-off date (usually three weeks from date of warning) and warn him that the penalty clause will be applied if the order is not executed before the cut-off date. If he does not heed the warning, the penalty clause must be applied and the action reported to the Accounting Office

61. **SUBCONTRACTOR DEVELOPMENT**

1. Subcontracting as a condition of tender for procurement above R30 million.
2. **The Preferential Procurement Regulation 19 (1) states that if feasible to contract above R 30 million, an organ of state must apply subcontracting to advance designated groups”.**
3. The term “feasible” is used in recognition of the fact that it may not always be possible to subcontract in all tenders due to the nature of some tenders. (For instance it may not be possible to sub-contract one piece of machinery that is above R 30 million).
4. THLM must therefore identify procurement opportunities for designated groups where compulsory sub-contracting must be applied to all contracts/ projects above R30 million.
 - a) With reference to contracts/ projects below R30 million, the breakdown will be applicable;
 - i. R 0.00 – R 5 000 000.00 = No sub construction
 - ii. R 5 000 000.00 – R 10 000 000.00 = 7.5%
 - iii. R 10 000 000.00 – R 15 000 000.00 = 10%
 - iv. R 15 000 000.00 – R 20 000 000.00 = 15%
 - v. R 20 000 000.00 – R 25 000 000.00 = 20%
 - vi. R 25 000 000.00 – R 29 999 999.00 = 25%
 - b) With reference to contracts/ projects above R30 million, subcontracting will be applicable as per gazette legislation below;
 - i. In terms of PPR 9(1)
If feasible to subcontract for a contract above R30 million, an organ of state must apply subcontracting to advance designated group.

Note:

(a) Feasibility should be assessed whether it is practical to subcontract in view of the nature of the services or goods required.

(b) For example if the organ of state procure specific equipment from abroad, it is not feasible to subcontract

(c) Another example if the organ of state appoints a contractor to build road or office building, it is feasible to subcontract

- ii. R 30 000 000.00 and above = 1 preferred Sub Contractor from local contractors database responsible to subcontract as per the above minimum threshold (a, b,c,d, e) depending on actual value of 30% allocated as per preferred sub contracting amount.

(i.e) The Main contract appointed at R30 000 000.00 project value and allocated preferred subcontractor is 30% (R9 000 000) which fall within category 6. (a) R 5 000 000.00 – R 10 000 000.00 = 4 Sub Contractors (3 x Grade 1 and 1 x Grade 2).

Which will the mean 1 preferred Main Sub Contractor and 4 Sub-sub contractors

5. The responsibility to determine whether it is feasible or not rests with THLM as the preparers of the tender. THLM must ensure participation of EMEs and QSEs in contracts or projects and not just dismiss this provision on the basis that it is not feasible without providing facts and objective analysis to substantiate their decision.
6. Allocation of subcontractors per percentage component (CE and GB):
 - a) R 5 100 000.00 – R 10 000 000.00 = 2 Sub Contractors (2x Grade 1)
 - b) R 10 000 000.00 – R 15 000 000.00 = 4 Sub Contractors (3 x Grade 1 and 1 x Grade 2)
 - c) R 15 000 000.00 – R 20 000 000.00 = 6 Sub Contractors (4 x Grade 1 and 2 x Grade 2)
 - d) R 20 000 000.00 – R 25 000 000.00 = 8 Sub Contractors (6 x Grade 1 and 2 x Grade 2)
 - e) R 25 000 000.00 – R 29 999 999.00 = 10 Sub Constructors (8 x Grade 1 and 2 x Grade 2)
7. Sub construction tenders must be advertised by the main contractor as per section 6 with a condition that tenderers who fail to comply with this requirement would be disqualified. The requirement is sub-divided into two components which are the pre-qualification stage and the pricing stage as detailed below:

- a) Stage 1 – Pre-qualification stage - CIBD certificate, company registration certificate, tax verification pin certificate, municipal account, CSD document, BBBEE and company profile
 - b) .Stage 2 – Pricing stage – pricing of bill of quantities.
 - c) For responsive tenderers to be considered for final evaluation, they must have satisfied/ met the requirements of Stage 1. Stage 2 entails the submission of bill of quantities which will have been issued by
 - d) Timelines for the stages:
 - i. Stage 1 – Advert to be issued by the main contractor for a briefing session, and tenders to close 5 days after the date of briefing.
 - ii. Stage 2 – Bill of quantities to be issued 5 days after closure of the pre-qualification documents. Five days is to allow the main contractor to conduct evaluation of the pre-qualification documents. Stage 2 documents to close 3 days after bill of quantities will have been issued.
 - e) Final evaluation:
 - i. Final evaluation to be conducted taking the BBBEE certificate and lowest price into account, and responsive bidder shall be ranked in order of points (descending) they scored.
 - ii. A 60:40 ratio will be used for the final selection of responsive bidders, with 60% preference allocated to locals of that particular Ward where the project is implemented, and 40% allocated to locals within other Wards of Thembisile Hani Local Municipality.
8. Only Grade 1 – 3 CE and GB Contractors will be eligible for Sub Construction opportunities, and Contractors (companies) are to be appointed in only one project/ contract per financial year.
 9. THLM must conduct a market or industry research to identify level of transformation in the sector or commodity, role players and their B-BBEE status level and availability of EMEs or QSEs who may be eligible for subcontracting.
 10. The CSD has been upgraded to allow bidders/ contractors/ suppliers access to CSD for identification of potential sub-contractors from the pool of EMEs or QSEs to advance designated groups.
 11. Sub-contractors in the case of construction and built environment sectors, will be form the municipal database developed for sub-construction

12. The responsibility for inclusion of compulsory subcontracting clause in the tender rests with THLM.
13. The contract will be concluded between the main contractor and the institution, therefore, the main contractor and not the sub-contractor would be held liable for performance in terms of its contractual obligations.
14. Main contractors/ suppliers are discouraged from subcontracting with their subsidiary companies as this may be interpreted as subcontracting with themselves and / or using their subsidiaries for fronting. Where primary contractor subcontracts with a subsidiary this must be declared in tender documents.
